

Adobe® Photoshop® Lightroom (LR)® Tutorials by Julieanne Kost

A Customized DVD for PSA-member Clubs: Courtesy of Adobe TV

Learn Lightroom 2.0 - What's New: Library (26:33)

This is a good module for clubs wanting an in-depth look at how to improve their digital workflow. Club members can learn how to navigate the new library layout, as well as how to import, organize, and find images quickly.

Learn Lightroom 2.0 - What's New: Develop Module (22:38)

Club members may not fully understand Lightroom's editing capabilities. In this video, Julieanne Kost shows how to make non-destructive, localized corrections using the new Adjustment Brush and Graduated Filters.

Learn Lightroom 2.0 - What's New: Output (22:07)

Julieanne Kost provides clubs with an overview of the Export options in Lightroom 2. Members will learn about integration with Photoshop, as well as updates to the print, slideshow, and web modules.

The Complete Picture - Working with DNG Camera Profiles (13:02)

In this session, club members can learn how to take advantage of the new Adobe Standard and Camera Matching DNG Camera Profiles in Lightroom 2 and Photoshop CS4. They can discover how to best use and apply profiles by: customizing their default settings, synchronizing settings between images, and/or creating presets and applying them upon import — unlocking the secrets of Camera Profiles.

The Complete Picture - Organizing your Photographs (8:13)

In this session, club members can take an in-depth look at the way they organize their images using the Folders panel in Lightroom. Although it's simple and easy to navigate, it gives a powerful control over ones images when needed.

The Complete Picture - Custom Sort Orders (8:21)

Julieanne Kost will walk the group through the rules for how and when you can create custom sort (sequence) orders of your photographs in Lightroom 2.

The Complete Picture - Working with Multiple Catalogs in Lightroom (17:46)

Club members will learn the most efficient way to work with multiple catalogs in Lightroom. They will discover how to combine catalogs by merging a "location" catalog with one in the studio as well as exporting a subset of images as a catalog to retain essential features such as virtual copies, collections, slideshows, and more.

The Complete Picture - Email Directly from Lightroom (7:07)

In this episode Julieanne Kost will demonstrate how to configure Lightroom so that you can export your images and email them with a single click!

The Complete Picture - Automating Lightroom and Photoshop (13:02)

Many photo-enthusiasts have been automating image processing for years in Photoshop — and they don't have to stop now! In this session, club members can learn how to create actions and droplets in Photoshop and hand them off to LR in order to batch process their workflow.

The Complete Picture - Timesaving Features in Lightroom 2 (20:02)

Julieanne Kost will show club members a multitude of Lightroom 2 features that can make a huge difference in overall workflow.
